

**REFERRALL COIN(RFRL)  
WHITEPAPER**

Start

This information is written for you to understand Referral Coin.

Referral Coin does not have any social media accounts.

You can only buy Referral Coin by exchanging it with a solana wallet from the Raydium website.

Referral Coin has emerged as the easiest way to reach an average of 8 billion people in the world.

Our mining operations are completely based on advertising.

You will be able to earn money by mining without the need to use a processor and graphics card.

You can earn money by sharing the coin on all social media today and on decentralized social media of the future and instantly convert it into your country's currency.

How is mining done?

Log in from the member login button in the upper right corner of the Referrallcoin.pro website.

Write the link of the post you are advertising in the space in the first tab.

Write your solana wallet in the space in the second tab.

Unless it is the same share, the distribution will be approved by artificial intelligence. Our reward rates according to today's social media websites

For posts containing only text, \$1 per post

For visual + text sharing, \$2 per post

For a post containing video,

<b>Views</b>	<b>Reward</b>
100	\$1
1000	\$10
10000	\$100
100000	\$1,000
1000000	\$10,000
10000000	\$100,000
100000000	\$1,000,000
1000000000	\$10,000,000
10000000000	\$100,000,000
100000000000	\$1,000,000,000
1000000000000	\$10,000,000,000
10000000000000	\$100,000,000,000

Our artificial intelligence module works with certain algorithms.

Incoming connections

Units	Day
1000	1
10000	2
100000	4
1000000	6
10000000	10

### **Information About Coin:**

Referral Coin Total Supply 100 Billion units

Referral Coin Circulating Supply 10 billion units

Referral Coin Mining Supply 90 billion units

Mining Supply is a backup of Referral Coin founder wallet. When you look at the chain, you can see that 90% of it is in this wallet.

This wallet has no sales authority. The only thing that works with human hands in the project is the website.

If there is a problem on the website, this coin will not be affected.

Our Blockchain System works as a closed circuit.

This cryptocurrency has no owner.

This cryptocurrency does not have a Social Media site.

The mining distributions of this cryptocurrency will be made by Artificial Intelligence.

The connections entered as a system are sent to the automatic artificial intelligence algorithm. The artificial intelligence approves these transactions and distributes them within the chain according to the algorithm above.

Referral coin increase Algorithm:

According to average statistics, 1 person is purchased in advertisements made to 100 people. If an investment of \$ 100 is made, \$ 99 goes into the coin for the miner who advertises \$ 1.

In other words, by reducing the increase unit in the payments made by Referral Coin by 1%, there is an inflow of \$ 99 while there would normally be a money inflow of \$ 100. The miner can get his \$ 1 profit.

The only thing Bitcoin could not do was not be able to make itself known to people. But we will be the pioneer of a global revolution by reaching all people.

If there are centralized or decentralized companies that want to trade the Referral coin, they can buy the coin with currency via Raydium or from miners.

Since stock market listings will be considered as advertisements, they can join the mining network considering the number of people they will reach.

People and institutions can join mining for free by sending links on stock exchanges and writing their wallets, just like they send links at the entry stage.

Since there will be no communication channel, the authority will be entirely in the hands of coin owners.

The website is only used for mining. In case of any cyber attack, the Coin will not be affected. The information on our website is kept as a separate file by artificial intelligence.

In other words, the Referrall coin's website has no connection with the Referrall coin. The artificial intelligence only instantly pulls and records the links and wallets entered from there.

The world's most robust chain is ready to reach all the people of the world.

Buy the Referrall Coin to join us and establish the world's largest cryptocurrency system.
